

Treasurer Report, AGM January 2019

I present to you the latest annual accounts
Audited and thoroughly checked for you
We have banked all the income amounts
And paid most bills before they were overdue.

There are lots of pages for you to read
But to keep you from getting soo bored
I'll highlight the important bits you need
And then ask you accept this report with accord.

Page five shows the surplus for the year
Bottom line just over thirty thousand bucks
I know you're thinking our ammo's too dear
And paying those damn affiliation fees really sucks.

But this year's extraordinary, say the bosses
Funding grants we received, thank the Lord!
So a great opportunity to recoup prior losses
And plan for the future development of our sport.

Also on page five, next week's worlds event
Shows an exact nil surplus, how can that be?
That's because MBIE dollars not yet spent
Can be carried forward into this year, you see.

How's our budget this year, you may wonder
We're looking at another gain I'm happy to say
And, unless there's a disaster or huge blunder
All your thirty dollar levies we'll be able to repay.

Happy to answer any questions, one at a time
And although I wrote this while watching the cricket
I take my role seriously, even if my report's in rhyme
And if you don't like it this way let me tell you where to stick it.

Coby Snowden
Treasurer, Jan 2019
